

IT financing is just the beginning

It's true that IBM Global Financing is the IT industry's leading single-source provider for leases and financing offerings that can turn large technology investments into affordable monthly payments.

It's also true that our highly competitive rates—among the lowest in the industry—can be used to acquire hardware, software and services.

Even if they're not from IBM.

But controlling costs and reducing Total Cost Operation (TCO) really just begins at acquisition.

We offer a full range of services that can help you lower costs and better manage your IT assets throughout the technology life cycle.

We provide financing flexibility to design and build energy-friendly data centers, including financing for select facility design and construction, IT hardware, software, and consulting from IBM as well as other vendors.

IBM Asset Recovery Solutions

When you're refreshing technology in your organization, specifying, acquiring and installing new systems is only half the challenge.

What are you going to do with all the hardware you're replacing?

Whether you're retiring a single server or thousands of PCs, IBM Asset Recovery Solutions can help.

Our buyback services let you capture the maximum fair market value from your retired assets, which can then be applied to new equipment acquisitions.

For hardware without market value, we reclaim all components that can be reused or recycled.

And for anything that's left, we dispose of it in a way that's environmentally responsible.

We even offer data destruction services to help ensure your proprietary data is virtually irretrievable.

IBM Certified Pre-owned Equipment

Maybe you want to grow your IT portfolio faster than your budget will allow.

Maybe you're trying to match some existing systems, but they're no longer in production.

Or maybe you just love the idea of acquiring late-model used systems with great specifications and performance, at a fraction of their original price.

Every item available through IBM Certified Pre-owned Equipment is factory-refurbished and tested to IBM specifications, ships with all standard cables and documentation, and comes with a quality satisfaction guarantee.

You can even finance it through IBM Global Financing, just like a brand-new system.

From notebooks and desktops to servers and peripherals, there's no better way to save on genuine IBM solutions than with IBM Certified Pre-owned Equipment.

Commercial Financing

If your company needs working capital to finance day-to-day operations or to help grow your business, IBM Global Financing offers competitively priced funding with flexible terms and conditions.

For technology Resellers, we offer Inventory Financing to finance purchases from IBM or over 100 other suppliers and distributors, with no interest charges for 45 or more days.

Our Receivables Financing provides working capital by letting you borrow against collateral such as accounts receivable and inventory.

If you're an IBM Supplier, you can be paid on your IBM invoices in as little as 15 days, using Payables Financing. Your IBM receivables are automatically qualified for this program.
